

The public examinations of the draft regional and local planning policies

The campaign has appointed consultant Chartered Town Planners, The D & M Planning Partnership of Godalming, to advise on planning issues. Colin Meade of D & M will be representing us at the public examinations of the draft South East Plan and the draft of Waverley's Core Strategy. These are vital stages for the campaign. It is important that the present drafts, which cover the regional and local policies for the quantity and location of new housing, are not amended in a way that favours the development of a new settlement in Waverley.
